01 Starting the Design Process

Before we can start designing, you need to submit your design brief. This will provide us with all the information we need about the room you'd like to transform, your preferred design style, and the budget you'd like to stick to. We'll also ask you to provide some measurements and photos too, We'll send you a measuring guide with everything you need to submit to get this part right.

02 Consultation

After submitting your design brief, you can arrange a consultation with Natalie & Jenna at a suitable time for you where we can chat through some ideas and get the design process rolling.

03 Inspiration

Sometimes it's easier to show your true style with pictures. We have created Vision boards which we will share with you showing different design styles for you to comment and tell us which ones represent your style and personality.

04 Final Design Presentation

Once your design is complete, you will receive your design concept board with the personally selected items for your room, a colour palette listing all materials, the furniture layout plan and shopping list.

05 Clickable Shopping List

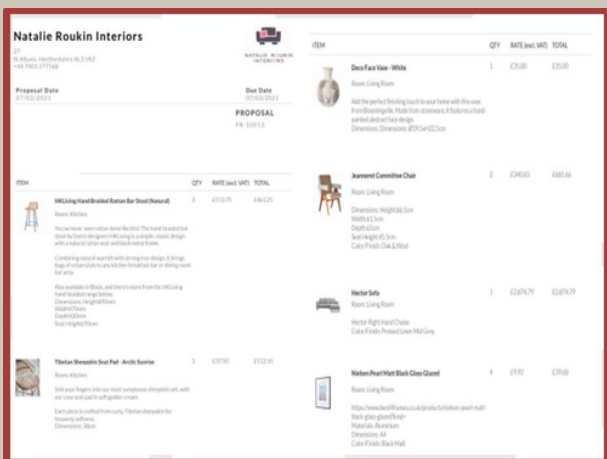

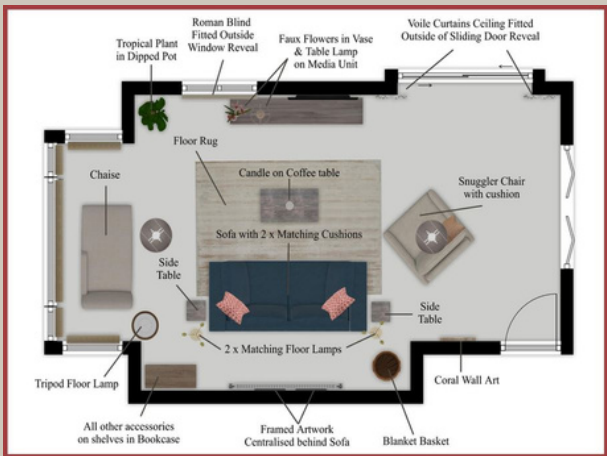

To save you time and stress, we provide you with a clickable shopping list of all of the items in your design, with direct links to each product so you can shop online from the ease of your home. Now all you need to do is sit back, relax and wait for your lovely things to arrive to totally transform your room!
