01 Starting the Bathroom Design Process

In order to start the design process, we need you to send us your design brief. This will equip us with all the necessary details about your bathroom, your preferred design aesthetic, and the financial plan you would like us to stick to. We'll also request you to provide us with some measurements and photographs. We'll send you a measuring guide with everything you need to submit to get this part right!

02 Virtual Consultation

Once you've submitted your design brief, you can schedule a Virtual Consultation with Natalie and Jenna at a time to suit you. At this point, we can discuss various concepts and the design process, layout considerations, storage requirements and our 'Design Process'.

03 Inspiration

Sometimes it's easier to show your true style with pictures. We've curated Vision boards, that we will share with you, that showcase various kitchen design styles for you to comment and tell us which ones reflect your style and personality, whilst also pinpointing some essential items that you would really love in your new bathroom.

04 Final Design Presentation

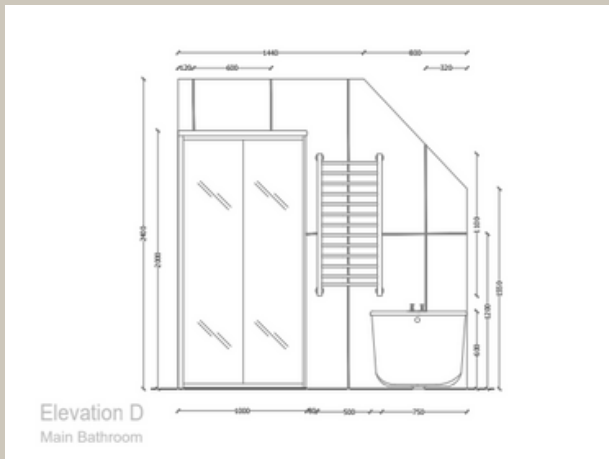

After designing your bathroom, we'll provide you with an 'Interactive 3D Model' which showcases and details our chosen items for your space and brings your bathroom design to life in stunning virtual reality. You'll also receive a shopping list with all items in your bathroom design.

05 Clickable Shopping List

To save you time, we offer a clickable shopping list for all accessories to bring the space to life and add your own personality! Once your new bathroom is ordered and the deposit paid, you will receive 3D renders and elevation drawings. Once you've purchased everything, all that's left for you to do is sit back and await the arrival of your new items, which will completely transform your bathroom!
